Before You Proceed:

- You must ensure that all ECF hardware/software requirements posted on this website have been met at your site.
- You must have a valid PACER login and password for your firm or office. If you do not have one, then please contact the PACER Service Center at :

- Use the following checklist to determine whether you are ready to receive training on the ECF system. If you do not have the skills listed below, then you should seek out appropriate training ASAP before you sign up for ECF training. Pre-Class Exercises

The purpose of the Pre-Class Training is to minimize the time you spend in Instructor-led ECF Classroom Training and to provide you with some basic computer skills practice before you come to class.

Portable Document Format (PDF):

Portable Document Format (PDF) is a universal file format that preserves all of the fonts, formatting, colors, and graphics of any source document, regardless of the application and platform used to create it. ECF requires that all documents submitted to the court electronically (except for matrices) be in PDF format. Documents originally created in either Word or WordPerfect can be easily converted to PDF documents using Adobe Acrobat. Many of the court forms used in ECF are PDF documents and the forms often must be completed and attached to ECF filings. Completing these PDF forms can be done on your computer and saved there to be retrieved and attached at the time of filing.

In the following Pre-Class training exercises you will be manipulating PDF forms and converting word processing files to PDF.

In the following exercises, you will be asked to :

1. Work through each lesson's exercise and complete the designated task.
2. Save each document to the same drive and folder on your PC.
3. Compose an e-mail message with the subject title "Application for ECF Training and Pre-Class Exercises".
4. Attach the Application for Training (Lesson 1) and the PDF file you created (Lesson 2) to the e-mail message.
5. Send the e-mail and PDF attachments to:
training_pdx@orb.uscourts.gov For training in Portland
training_eug@orb.uscourts.gov For training in Eugene
6. Complete the ECF Tutorial available on our website at:

Instructions on how to save WordPerfect or Word Files in PDF format. Note: You must have Adobe Acrobat installed for this to work correctly.

- a. Open a 1-page document using either Word or WordPerfect. Choose a document that you don't mind sending to the Bankruptcy Court. It will only be used to determine if you are able to create a PDF document.
- b. From the main menu, click on *File > Print*. The *Print* dialog box appears.
- c. Select **Adobe PDFWriter** in the printer *Name* field
In Word, click **OK**
In WordPerfect, click **Print**
- d. The *Save PDF File As* dialog box opens - Select a drive and folder in which you will place the newly created PDF document. Choose a drive and folder that is easy for you to remember as you will need to retrieve the document later to complete the training. Preferably, choose the same location as in the previous lesson when you saved the application for training.
- e. In the *File Name* field, type the following file name: **mypdf.pdf**, then click on **Save**. The word-processing program "prints" the PDF document, and Adobe Acrobat opens, displaying the newly created PDF document.
